

# PHI KAPPA

University of Illinois

Hello to all Phi Kappas and to all Crows. The first thing that I'd like to mention concerns our Alums. The annual Grad-Undergrad picnic has been scheduled for July 13, at 12:00. Everyone is to meet at the House, as a place has not yet been picked. I hope to see a lot of Alums there as by then I'll also be an Alum.

I would also like to thank the Alums and the Undergrads for the money and work put in on the second floor hallway. We had to put up with a mess for a while but it was worth it, as the hallway really looks great now.

Next, the National and Phi Lambda deserve a lot of credit for putting on one great basketball tournament. The hospitality was great considering the huge crowd that was there. I'd also like to thank Steubenville for putting us up for a few hours on our way to Penn State.

As far as our own Chapter goes we are looking toward the close of another great year. Academically, the House grade average was above the all-fraternity average last semester. This is the first time that we could boast that in several years.

Athletically, we are currently in a six way battle for the Orange Division crown. We have had good teams in volleyball, handball, and basketball. All three were undefeated in league play, but lost to tough competition in the playoffs. We are looking towards good finishes by the raquetball, bowling, softball and track teams this spring.

The athletes are not the only winners in the House, as the singers have once again made it to the finals of the Atius-Sachem Sing, to be held on Mom's Weekend in late April. Paired with Pi Beta Phi this year, we are hoping to match last years first place production group.

The House has also seen its fun this year along with the work. We have been enjoying ourselves socially as the large party turnouts
